### Profile

Detail-oriented and analytical professional skilled in **data annotation, quality control, and AI model support**, with hands-on experience in **data-driven project execution** and **problem-solving**. Adept at handling **text, image, audio, and video data**, maintaining **confidentiality**, and adhering to operational **SOPs**. Strong foundation in **machine learning workflows, data analysis**, and **technical documentation**. Passionate about contributing to Amazon's mission of developing and deploying **generative AI responsibly**.

### Education

**Bachelor's Of Technology,** 08/2022 – Present  
*Vignan's Foundation For Science Technology And Research Vadlamudi Guntur*

**Intermediate, S.R Juniour College** 08/2020 – 05/2022

### Skills

#### Programming Languages

Java, Python, C, SQL

#### Databases

MySQL, MongoDB

#### Web Development

HTML, CSS, JavaScript, Bootstrap, React.js, Node.js, Express.js, PHP

#### DevOps&Cloud Tools

Git, GitHub, Docker, Jenkins, CI/CD Pipeline

#### Generative AI & Large Language Models (LLMs) Fundamentals

#### Analytical Thinking & Root Cause Analysis

#### Research & Report Writing

#### Quality Assurance & Process Optimization

### Projects

**Vignan Mahotsav Website** 12/2024 – 04/2025

- Delivered and tested **high-quality event data** for 1,000+ participants with **99% accuracy**.
- Designed an **automated registration and event dashboard** system improving **data consistency by 70%**.
- Performed **root cause analysis** and resolved 15+ system errors, ensuring smoother data processing.
- Ensured **confidential data security** and optimized backend for scalability and low resource consumption.

**Fast Feast Website, Delicious Bites, Delivered Fast** 06/2024 – 09/2025

- Managed structured **data labeling** and **real-time analytics** for food delivery performance metrics.
- Reduced **API latency by 25%** and improved **data responsiveness by 60%** through efficient backend tuning.

- Conducted **cross-browser testing** and **multi-modal validation** for UI/UX consistency.
- Applied **attention to detail** in debugging, ensuring reliable end-to-end user data flow.

## Certificates

---

- |                                      |  |  |
|--------------------------------------|--|--|
| • Certified Power BI Developer – PwC | • Certified Cybersecurity Analyst - TATA | • GenAI Powered Data Analytics - TATA                          |
| • Solutions Architecture – AWS       | • Data Analytics – Deloitte              | • Introduction to Industry 4.0 and Industrial Internet – NPTEL |
| • GenAI – BCG X                      |  |  |

## Additional Highlights

---

- Strong **business writing skills** for reports, proposals, and documentation.
- Experienced in **collaborative, Agile environments**.
- Ability to **analyze complex business documents** and synthesize insights.
- Demonstrated **adaptability** in fast-paced, evolving environments.
- Committed to **ethical AI development** and **responsible data practices**.
